📍 New Delhi, India

## Summary

A motivated Computer Science Engineering student with strong technical foundation and leadership experience. Passionate about web development, machine learning, and algorithm optimization. Seeking opportunities to apply technical skills and contribute to innovative projects while continuing to grow in software development and emerging technologies.

## Education

### B.Tech in Computer Science and Engineering

VIT Bhopal University

Expected Graduation: 2027

GPA: 8.96 / 10

### Senior Secondary (XII)

Seth Bhagwan Dass Sr Sec School

2022 – 2023

Percentage: 88%

### Secondary (X)

Seth Bhagwan Dass Sr Sec School

2020 – 2021

Percentage: 91%

## Skills

**Programming Languages:** C++, Java, Python

**Web Technologies:** HTML, CSS, JavaScript, React.js

**Tools & Platforms:** GitHub, Git, Scikit-Learn

**Core Competencies:** Data Structures & Algorithms, Machine Learning Algorithms, Data Processing

**Soft Skills:** Leadership, Logical Reasoning, Teamwork

## Experience & Leadership

### Core Team Member, Advitya 25

2024 – Present

Annual Flagship Techno-Cultural Fest, VIT Bhopal

- Coordinated logistics and technical arrangements for university's premier fest with 5000+ participants, managing event scheduling and vendor communications.

### PR Lead

2024 – Present

Hindi Club, VIT Bhopal

- Led promotional campaigns and social media outreach, increasing club membership by 40% through strategic content creation and campus engagement initiatives.

### Core Member, Technical Team

2024 – Present

iCreate Club, VIT Bhopal

- Developed technical solutions for club projects and mentored junior members in programming concepts, contributing to 3 successful technical workshops.

## Projects

### EVENZA - Event Management Platform | HTML, CSS, JavaScript | [🔗](#)

2024

- Developed a comprehensive web application to track college events and manage registration details for students and faculty.
- Implemented responsive design ensuring seamless user experience across desktop and mobile devices.
- Created dynamic event filtering and search functionality to help users easily discover relevant campus events.
- Integrated registration system with form validation and confirmation features, streamlining event participation process.

## Certifications

- Google Cloud Generative AI – SmartBridge (2024):** [🔗](#) Acquired hands-on experience with Google Cloud AI services and generative AI technologies, including model deployment and optimization strategies.
- Introduction to Machine Learning – NPTEL (IIT Kharagpur) (2024):** [🔗](#) Gained comprehensive understanding of ML algorithms, model evaluation, and practical implementation techniques for real-world problem solving.
